

1	TV Paneling (HPLBasic) Without Down Cabinet	Top Material: Hand Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Hand Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. (Without supplying wiring & lighting)	1200-1250
2	TV Paneling (Hand Made)	Top Material: (Hand Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Hand Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic L Clam. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. (Without supplying wiring & lighting)	1400-1450

3	TV Paneling (Hand Made) with Back Materials	Top Material: (Hand Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Hand Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic L Clam. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Side Material: 01.Fareming: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 02.Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Supplying & Making of 12 mm CNC Cut Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood With Good Quality Docu Paint Or Charcol Panel With finish metallic T bit. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. (Without supplying wiring & lighting)	1450-1550

4	Premium Acrylic TV Paneling (Factory Made)	Top Material: (Factory Made) Factory Pasting Of Imported Premium Acrylic Laminate with golden finish metallic bit Or with finish metallic T bit. Cabinet Material: (Factory Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic L Clam. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Side Material: 01.Fareming: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 02.Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Supplying & Making of 12 mm CNC Cut Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood With Good Quality Docu Paint Or Charcol Panel With finish metallic T bit. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. 04.Back Materials : 01.Core material: Supplying & Making 6mm or 3 mm Good Quality PVC Ply wood. (Without supplying wiring & lighting)	1750-1850
