

Quotation Summary for:

Date: 20-04-2026

Mr. Yamim Sir

Address: Nikunjo.

Subject: Quotation Summary for interior decoration work.

Dear Sir,

Yours sincerely, I am interested in working on the interior of your Flat. So, the details of my work are described below.

SL	NAME	TOTAL
01	Ground Floor	2821750
02	First Floor	5779650
03	Second Floor	2347000
04	Roof Top	2282000
05	Door Work	644000
06	Furniture Work	1527000
07	Demolition Work	451500
GRAND TOTAL		15852900

In Words: One Crore Fifty-Eight Lakh Fifty-Two Thousand Nine Hundred Taka Only.

Quotation for:

Date:20-04-2026

Mr. Yamim Sir

Address: Nikunjo.

Subject: Quotation for interior decoration work.

Dear Sir,

Yours sincerely, I am interested in working on the interior of your Flat. So, the details of my work are described below.

GROUND FLOOR					
SL	NAME	MATERIALS	QTY SFT	UNIT PRICE	TOTAL
01	Lobby Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring &lighting)	183	750	137250
02	Lobby Louver Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex Or 12 mm CNC cut PVC ply with Good Quality Docu Paint. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring &lighting)	99	1350	133650
03	Lobby Wall Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02. Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Factory Pasting Of Imported Premium Grade High Pressure Laminates. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory.	133	1350	179550

		Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)			
04	Lobby RCC Seater	01.RCC Structure: Seater will be constructed with Reinforced Cement Concrete (RCC) using cement, sand, stone chips, and steel reinforcement. 02.Formwork: Proper shuttering/formwork will be installed to shape the seating structure before concrete casting. 03.Reinforcement: Required steel bar reinforcement will be fixed to ensure strength and durability. 04.Concrete Casting: RCC will be cast and properly cured to achieve the required structural strength. 05.Surface Finishing: All exposed surfaces will be finished with cement plaster and smooth finishing as per approved design.	39	3000	117000
05	Lobby Seater Back Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02. Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Factory Pasting Of Imported Premium Grade High Pressure Laminates. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	92	1350	124200
06	Stair Area North Side Area Wall Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Supplying & Making of 12 mm CNC Cut Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood With Good Quality Docu Paint Or Charcol Panel.	200	1450	290000

		Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)			
07	Stair Area West Side Area Wall Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making 18 mm Good Quality Medium Density Fiber Wood. 03.Top Material: Making 18 mm Good Quality Laser 3D Cut Medium Density Fiber Wood With As Per Design. 04.Paint: Imported Good Quality Docu Paint. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	265	1650	437250
08	Stair Area East Side Area Wall Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Premium Quality stone texture. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	504	1650	831600
09	Stair Area Covering Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making 12mm Good Quality Medium Density Fiber Wood. 03.Top Material: Making 12 mm Good Quality Medium Density Fiber Wood With Good Quality Docu Paint. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. (Without supplying wiring & lighting)	75	2550	191250
10	Wall Paint	Paint: After Interior Work The Blank Wall's. Will be Painted By Berger Plastic Paint.	----	45	----
11	Wall Paint	Paint: After Interior Work The Blank Wall's. Will be Painted By Berger Luxury Paint.	----	65	----

12	Electric Wiring & Lighting:	*All Over Interior Work Wiring Used on BRB Cable. * Magnetic Light. * Spot Light. * T5 Light. * Silicone Light.	Package	As Per Design	38000 (Approx)
TOTAL			2821750		

In Words: Twenty-Eight Lakh Twenty-One Thousand Seven Hundred Fifty Taka Only.

Terms & Condition:

1. Any additional item will be a subject of extra bill.
2. Final bill will be counted as per final measurement.
3. For any support a valid work order from the client is mandatory requirement
4. The work will be completed based on time schedule.
5. Any change of design will be incurred by discussion between client & consultant.

Mode of Payment

1. 60% of the total amount will be given by the client at time of work order given.
2. 40% of the total amount will be given by the client when 50 % work will be done.

Duration Of Work:

1. It will take 2 Months to complete the work. Depends on Payment Schedule, Political Issue & Environment.
2. Day will be counted from the 3 next days after getting the work order.

Drawing Design: All fabrication work will be implemented by approved drawing design, so client should be approved all drawing & design.

Mr. Yamim Sir

Address: Nikunjo.

Subject: Quotation for interior decoration work.

Dear Sir,

Yours sincerely, I am interested in working on the interior of your Flat. So, the details of my work are described below.

FIRST FLOOR					
SL	NAME	MATERIALS	QTY SFT	UNIT PRICE	TOTAL
01	Dining Area Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring &lighting)	341	750	255750
02	Dining Area Reflective Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex Or Imported reflective material. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring &lighting)	34	1450	49300
03	Dining Area Imported Auto Sensor Profile Glass Door Buffet Counter	Door Material:(Factory Made) 01. Imported Black profile glass Frame. 02. Imported 5mm Lacquered Glass. 03. Hidden Profile Light. 04. Automated sensor system. 05. Hydraulic soft close hinges. Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade Fluted High Pressure Laminates. Cabinet Material: (Factory Made)	68	3550	241400

		Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without supplying wiring & lighting)			
04	Dining Area Buffet Counter Upper Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making 18 mm Good Quality Medium Density Fiber Wood. 03.Top Material: Making 18 mm Good Quality Laser 3D Cut Medium Density Fiber Wood With As Per Design. 04.Paint: Imported Good Quality Docu Paint. Side Material: 01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Supplying & Making of 12 mm CNC Cut Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood With Good Quality Docu Paint Or Charcol Panel. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	42	2250	94500
05	Dining Area Open Shelf	Top Material: (Factory Made) Factory Pasting of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18 mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood.	34	2450	83300

		*Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: Hydraulic soft close hinges & other necessary hardware. (Without supplying wiring & lighting)			
06	Dining Area Imported Auto Sensor Profile Glass Door Dinner Wagon With Double Door Fridge Cabinet	Door Material:(Factory Made) 01. Imported Black profile glass Frame. 02. Imported 5mm Lacquered Glass. 03. Hidden Profile Light. 04. Automated sensor system. 05. Hydraulic soft close hinges. Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade Fluted High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without supplying wiring & lighting)	72	3550	255600
07	Dining Area Kitchen Cabinet	Profile Glass Door Material:(Factory Made) 01. Imported Black profile glass Frame. 02. Imported 5mm Lacquered Glass. 03. Hidden Profile Light. 04. Automated sensor system. 05. Hydraulic soft close hinges. Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates Or Acrylic Laminates. Lower Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Marine Ply.	90	3550	319500

		Upper Cabinet Material: (Factory Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without supplying wiring & lighting)			
08	Dining Area Wall Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02. Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Factory Pasting Of Imported Premium Grade High Pressure Laminates. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	51	1350	68850
09	Living Room Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring & lighting)	251	750	188250
10	Living Room Texture Paint With 3D Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making 18 mm Good Quality Medium Density Fiber Wood.	99	1650	163350

		03.Top Material: Making 18 mm Good Quality Laser 3D Cut Medium Density Fiber Wood With As Per Design. 04.Paint: Imported Good Quality Docu Paint. Back Material: 01. Texture Paint: 3 Layer of Imported Texture Paint Is Applied. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)			
11	Living Room Closet With Hidden Closet	Door Material:(Factory Made) 01. Imported Champagne Gold Profile Glass Frame. 02. Imported 5mm Lacquered Glass. 03. Hidden Profile Light. 04. Automated sensor system. 05. Hydraulic soft close hinges. Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without supplying wiring & lighting)	51	3550	181050
12	Living Room TV Unit	Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory.	149	2450	365050

		* Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. Back Material: 01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02. Top Material: Premium Quality PU. Back Side Material: 01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Supplying & Making of 12 mm CNC Cut Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood With Good Quality Docu Paint Or Charcol Panel. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)			
13	Master Bed Room Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring & lighting)	311	750	233250
14	Master Bed Room Reflective Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex Or Imported reflective material. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring & lighting)	166	1450	240700
15	Master Bed Room Head Board Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making 18 mm Good Quality Medium Density Fiber Wood.	83	2450	203350

		03.Top Material: Making 18 mm Good Quality Laser 3D Cut Medium Density Fiber Wood With As Per Design. 04.Paint: Imported Good Quality Docu Paint. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)			
16	Master Bed Room Bed With Bed Saide Table	Bed: All Over Interior Work Bed Will Be Given 5.5'-6'X7' king size bed As per Design. Bed Side Table: All Over Interior Work Bed Will Be Given Bed Side Table As per Design.	Package	As Per Design	160000
17	Master Bed Room Bed With Raised Floor	Raised Floor: 01.Frame: Galvanized steel/metallic frame, fabricated to support modular wooden panels. 02.Wood Panels: Engineered outdoor-grade wood, treated for water and UV resistance. 03.Fixing System: Concealed screws and brackets for secure panel installation on the frame. 04.Design: Curved layout with LED strip integration along edges for accent lighting. 05.Substructure: Adjustable metal pedestals to level the floor and allow drainage/underfloor access. 06. Finish: Sanded and polished wood with weatherproof coating for durability and premium look. 07.Installation: Modular panels are easy to remove for maintenance or replacement.	97	1650	160050
18	Master Bed Room TV Unit With Back Paneling	Top Material: (Factory Made) Supplying & Making of 18mm CNC Cut Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood With Good Quality Docu Paint. Cabinet Material: (Factory Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory.	101	2050	207050

		* Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. Stone Texture: 01. Surface preparation including cleaning, putty application and sanding. 02. Application of approved primer coat prior to texture finish. 03. Providing and applying decorative stone texture finish using textured paint / plaster. 04. Texture pattern execution as per approved design/sample. 05. Final finishing to achieve uniform stone-like surface appearance. 06. Complete in all respects as per site condition. Back Middle Material: 01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making 12mm Good Quality Medium Density Fiber Wood. 03.Top Material: Making 18 mm Good Quality Medium Density Fiber Wood With Good Quality Docu Paint. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. (Without supplying wiring & lighting)			
19	Master Bed Room Walk In Closet	Door Material:(Factory Made) 01. Imported Champagne Gold Profile Glass Frame. 02. Imported 5mm Lacquered Glass. 03. Hidden Profile Light. 04. Automated sensor system. 05. Hydraulic soft close hinges. Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory.	141	3550	500550

		* Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without supplying wiring & lighting)			
20	Master Bed Room Walk In Closet Dressing With Back Paneling	Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Mirror composition: 12 mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood with 5 mm Belgium crystal mirror glass attached with highly dense silicon gum. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. Back Material: 01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02. Core Material: Supplying & Making of 12mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. 03.Top Material: Factory Pasting Of Imported Premium Grade High Pressure Laminates. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	88	2050	180400

21	Master Bed Room Walk In Closet Island	Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. Island Top Material: Top surface designed with 0.5 mm tempered glass with As Per Design. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	49	3550	173950
22	Master Bed Bath Room Basin Cabinet With Mirror	Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Marine Ply. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. Mirror composition: 12 mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood with 5 mm Belgium crystal mirror glass attached with highly dense silicon gum. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without Supplying Marvel, Granite Or Wiring & Lighting)	Package	As Per Design	95500

23	Master Bed Bath Room Enclosure	Supplying & Making 2 mm Imported SS U Chanel and 10 mm Tempered Glass with air tight technology & Other Hardware Accessories All Complete As per Design.	Package	As Per Design	88200
24	Child Bed Room Ceiling	01.Framing: Good Quality Metal Framing. 02.Core material: Supplying & Making of 12 mm POP (Plaster of Paris) Or Fire rated Or Plain Partex. 03. Joint treatment: Board joint filled by Araldite Epoxy Hardener (HV 953 U). 04. Paint: Berger or Asian Plastic paint. (Without supplying wiring & lighting)	113	750	84750
25	Child Bed Room Head Board Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02.Core material: Supplying & Making 12mm Good Quality Medium Density Fiber Wood. 03.Top Material: Making 18 mm Good Quality Medium Density Fiber Wood With Good Quality Docu Paint. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. (Without supplying wiring & lighting)	120	1450	174000
26	Child Bed Room Bed With Bed Side Table	Bed: All Over Interior Work Bed Will Be Given 5.5'-6'X7' king size bed As per Design.	Package	As Per Design	120000
27	Child Bed Room Bed Side Table	Bed Side Table: All Over Interior Work Bed Will Be Given Bed Side Table As per Design.	Package	As Per Design	30000
28	Child Bed Room Closet	Door Material:(Factory Made) 01. Imported 5mm Lacquered Glass. 02. Hidden Profile Light. 03. Automated sensor system. 04. Hydraulic soft close hinges. Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood.	35	3000	105000

		*Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without supplying wiring & lighting)			
29	Child Bed Room Dressing With Mirror	Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm High Pressure laminated Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. Mirror composition: 12 mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood with 5 mm Belgium crystal mirror glass attached with highly dense silicon gum. (Without supplying wiring & lighting)	Package	As Per Design	74000
30	Child Bed Bath Room Basin Cabinet With Mirror	Top Material: (Factory Made) Factory Pasting Of Imported Premium Grade High Pressure Laminates. Cabinet Material: (Factory Made) Supplying & Making of 18mm Architect Grade MR (Moisture Resistant) Marine Ply. *Shelves are attached by Metallic Housing Screw. *Board will be laminated by automated pasting machine to factory. * Edge will be covered by matched UV edging by Automated Machine In Factory.	Package	As Per Design	66000

		Mirror composition: 12 mm Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood with 5 mm Belgium crystal mirror glass attached with highly dense silicon gum. * Smart hardware accessories like: 3-part soft close SS drawer channel, hydraulic soft close hinges & other necessary hardware. (Without Supplying Marvel, Granite Or Wiring & Lighting)			
31	Child Bed Bath Room Shower In Closer	Supplying & Making 2 mm Imported SS U Chanel and 10 mm Tempered Glass with air tight technology & Other Hardware Accessories All Complete As per Design.	Package	As Per Design	67000
32	Wall Paint	Paint: After Interior Work The Blank Wall's. Will be Painted By Berger Plastic Paint.	----	45	----
33	Wall Paint	Paint: After Interior Work The Blank Wall's. Will be Painted By Berger Luxury Paint.	----	65	----
34	Electric Wiring & Lighting:	*All Over Interior Work Wiring Used on BRB Cable. * Magnetic Light. * Spot Light. * T5 Light. * Silicone Light.	Package	As Per Design	550000 (Approx)
TOTAL			5779650		

In Words: Fifty-Seven Lakh Seventy-Nine Thousand Six Hundred Fifty Taka Only.

Quotation for:

Date:20-04-2026

Mr. Yamim Sir

Address: Nikunjo.

Subject: Quotation for exterior decoration work.

Dear Sir,

Yours sincerely, I am interested in working on the interior of your Flat. So, the details of my work are described below.

ROOF TOP					
SL	NAME	MATERIALS	QTY SFT	UNIT PRICE	TOTAL
01	Roof Top Fountain With Upper Shade	01.RCC Fountain Structure: The fountain base and body will be constructed with Reinforced Cement Concrete (RCC) using cement, sand, stone chips, and steel reinforcement as per standard structural practice. 02.Waterproofing Treatment: Proper waterproofing compound will be applied inside the fountain basin to prevent water leakage and ensure long-term durability. 03.Surface Finishing: Inner and outer surfaces will be finished with cement plaster and decorative tiles / stone / texture finish as per approved design. 04.Water Circulation System: Fountain will include water pump, pipeline, and nozzle system for continuous water circulation and fountain effect. 05.Upper Shade Structure: An RCC slab / metal frame shade will be constructed above the fountain area to provide protection from sun and rain. 06.Shade Finishing: The upper shade will be finished with plaster and weather-resistant exterior paint / cladding for durability and aesthetic appearance.	159	3250	516750
02	Roof Top Raised Floor	01.Frame: Galvanized steel/metallic frame, fabricated to support modular wooden panels. 02.Wood Panels: Engineered outdoor-grade wood, treated for water and UV resistance. 03.Fixing System: Concealed screws and brackets for secure panel installation on the frame.	176	1850	325600

		04.Design: Curved layout with LED strip integration along edges for accent lighting. 05.Substructure: Adjustable metal pedestals to level the floor and allow drainage/underfloor access. 06. Finish: Sanded and polished wood with weatherproof coating for durability and premium look. 07.Installation: Modular panels are easy to remove for maintenance or replacement.			
03	Roof Top Canopy	01.Frame Material: Imported 2.5 mm Metalic Framing. 02.Glass: Imported 10 mm PC Poly Carbonate Sheet Or Laminated Tempered Glass. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Self Clean. (Without supplying wiring & lighting)	196	2450	480200
04	Roof Top RCC Gardening Box	01.RCC Gardening Box: The horizontal planter box will be constructed with Reinforced Cement Concrete (RCC) using cement, sand, stone chips, and steel reinforcement to ensure strong and durable structure. 02.Structure & Casting: Proper shuttering and steel reinforcement will be installed before casting the RCC slab to form the gardening box as per approved size and design. 03.Waterproofing Layer: The inner surface will be treated with waterproofing compound to prevent water leakage and protect the RCC structure. 04.Drainage System: Drain holes and PVC outlet pipe will be provided to ensure proper water drainage for healthy plant growth. 05.Surface Finishing: Outer surfaces will be finished with cement plaster and exterior grade paint / stone / tile finish as per design. 06.Planting Medium: The box will be filled with soil mixture and suitable planting medium for horizontal garden plantation.	118	1550	182900
05	Roof Top Artificial Grass	Artificial Grass: Artificial Grass is a premium synthetic turf system specially designed for rooftop applications to create a natural green environment without soil, watering, or heavy structural load. It enhances rooftop aesthetics while providing thermal insulation and comfortable walking surface.	223	450	100350

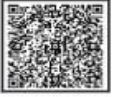

06	Roof Top RCC Slab Seater	01.RCC Slab Seating: Roof top seating area will be constructed with Reinforced Cement Concrete (RCC) slab using cement, sand, stone chips, and steel reinforcement as per standard structural practice. 02.Framework & Casting: Proper steel bar reinforcement and shuttering will be prepared before casting to ensure strength and durability of the seating structure. 03.Finishing: The top surface will be finished with smooth cement plaster / tiles / stone finish as per design for comfortable seating and aesthetic appearance. 04.Edge & Side Finish: All visible sides will be finished with cement plaster and paint / stone cladding to maintain a clean and modern rooftop look. 05.Usage: This RCC slab seating will provide durable, weather-resistant, and permanent seating arrangement for rooftop leisure space.	39	3000	117000
07	Roof Top Wall Paneling	01.Framing: Good Quality Architect Grade MR (Moisture Resistant) Highly Compressed Engineered Wood Framing 02. Top Material: Premium Quality PU Stone. Properties: Anti-Cracking, Water Resistant, Anti-Alkalinity and Acidity and Easy To Clean. (Without supplying wiring & lighting)	124	2050	254200
08	Wall Paint	Paint: After Interior Work The Blank Wall's. Will be Painted By Berger Plastic Paint.	----	45	----
09	Wall Paint	Paint: After Interior Work The Blank Wall's. Will be Painted By Berger Luxury Paint.	----	65	----
10	Electric Wiring & Lighting:	*All Over Interior Work Wiring Used on BRB Cable. * Magnetic Light. * Spot Light. * T5 Light. * Silicone Light.	Package	As Per Design	305000 (Approx)
